Alexandria Gazette for 1882

THE ONLY DAILY PATER PUBLISHED IN NORTHERN VIRGINIA-ONE OF THE BEST ADVERTISING MY-DIUMS IN THE STATE.

The ALEXANDRIA GAZETTE and VIR-GINIA ADVESTISER, begun in 1799, is the o'dest newspaper in the State, and the only daily published in Northern Virginis.

Already read by three generations, it proposes to conti us its useful life, and now enters upon another (the eighty-third) volume, determined to be the newspaper of the er: in Virginia.

The Gazatte will put forth its utmost endeavor to continue a model newspaper, and its success during this entire century in catering to the wants and meeting the wishes of the people, guarantees that with this paper promise means

With the coming year all the improved mathods of making a standard newspaper will be continued, with such additional facilities as experience justifies the proprietor in believing will add to the capacity of the Gazette to serve its resders. It expects to render faithful service to the city, the state and the country by a candid criticism of man and events in the interest of the people of the Commonwealth of Virginia.

It furnishes the news telegrams of the New York Associated Press and of Reuter's Euro. pean agency, being, with but few exceptions, the only paper between Baltimore and Richmand that is thus connected with the great fountains of the world's news.

Its contiguity to Washington gives the Gazzitte an early precedence over all the journals of the State in intelligence of the operations of the General Government. The proceedings of Congress will be regularly reported in succinct form for its columns, but all matters of especial interest in Virginia will be given in detail, and the full text of all tills of local interest will be

From the State Capital it will receive early and accurate accounts of the proceedings of the General Assembly and of all the operations of the State government likely to interest the people.

GARDEN SERDS, WINDOW GLASS, &c. &c.

No. 265 King st. b-tw-en Herry and Fayette, ALEXANDRIA, VA. General Assembly and of all the operations of

To meet all the demands upon it, the Gazatte will be made a WASHINGTON and RI-18. MOND NEWSPAPEE, as well as an ALEX-ANDRIA JOURNAL. The Richmond and Washington news of past years has left little to improve, but yet greater effort will be made to incure absolute perfection in these departments.

As the interests of the paor le mainly centre at home, no pains will be spared to chronicle all matters occurring in the city and neighborhood, carefully excluding unseemly expressions or gross narrative as upfit for a journal that is treasured at many thousand hearthstones of Virginia.

The city of Alexandria will find as usual its daily history in each evening's issue, and the intelligence of that section of the Commonwealth which nature has bound to Alexandria by the curvature of its mountains or the courses of its rivers as well as that portion linked to us by the iron bands of railways, will be assidulously chronicled.

The past of the Gazette is offered as an index of its future. It has never failed to avail itself promptly of all the improvements which come with the greater growth and more extended experionce of journalism.

In the progress of the growth and enterprises of cur city a Telephone Exchange has been established greatly to the benefit of the business community and with which the Gazette was early connected thereby putting the office in immediate communication with all parts of the city and faciliting the collection of news, &c.

Repecial attention will be devoted to present ing, as well from original sources of information as from its exchanges, the news of Virginia.

Concisely and completely it will give the news of the world.

The Business and Commercial columns of the G_{szette} will be filled with the earliest and most exact commercial news, edited with such painstaking care as will render an error, where even slight errors are dangerous, impossible. The farmers, drovers and commercial people of the S.atz know they may depend upon the Gazette.

Early and reliable reports of the Grain, Cattle, Grocery and other Markets will be furnished, and the prices and position of the stocks, which are the subjects of business transactions in this section of the country, carefully quoted.

The continual favors of those who have once used the Gazette as an advertising medium is a Warrant for saying that it pays to advertise in its columns which experience has shown to afford greater returns for a small investment than any other which can be made.

An Expose of the Oncida Community. James S. Vaill, a former member of the Obeida community, in an interview with a correspondent of the New York Herald recently,

give the following among other incidents of the internal economy of the community : internal economy of the community:

"My carliest recollections extend back to the Children's House—so called at the Oneida
Community. The children was best best of the Care, and it has effected an entire cue in my case. Community. The children were kept here by themse ves under an overseer and matron. And we were put to bid and whipped mighty regu lar, you'd better believe. The boys and girls were mixed up like so many tenpins-played together, eat tegether and slept in pairs.] occupied the same bed with girls myself til I remarable power of Warner's Safe Kidney and was twelve years old. We ware sent to bad at 7 o'clock, in the garret, and a dark, lonesome or place it was, too. If the overseer heard the has any physical trouble, remamber the great darger of dalay. least noise, such as whispering and giggling among the children, up they'd come with the switch of traided wire and lay it on the first pair of bare legs they'd come to after stripping the bed clothes off. No matter if the chi'd was them I tell you I've been stripped naked when but 5 and 6 years old and flugged awfully.
Buck of the children's building was a yard enclused by a high bourl ferce, juil fashion. Adjoining this yard was a pig siye, and ores against the fence we piled boxes till the whole f us c'imbed into the pigpen. Here we tumbled about in the e'r.w and finally took to imitating the immoral practices of the grown pecpla. for, dreadful as it w.s. we had many opporjunities of witnessing their obse no conduct. We had no idea of wrong, of o.urso, but we thought we must imitate them. We children were detected and then we had trouble. We ten at a time. The knowledge we had of the imm ral pric ices of grown people was gained ty peeping through the cracks of doors and keyholes. The terms 'scientific propagation,' were familiar to us from bearing them used by the grown folks every day, though we didn's know their meaning. Noves used to say the women must call all things pertaining to the s X and relations by their common name. The most obee ne and vulgar terms he speke out in R. This he called 'shaming the devil.' Oa one occa-ion when I was ten years old I remember of his siying that impropriety between the sexes wase's a bit more barm than shaking hands. l was hardly more than twelve years old when was initiated into immoral practices of N yas. was put to sleep with first one old woman and then another-all of them over six y years of age. As I became older and larger I was allowed the society of yonger women of thirty five and forty. Noges told us boys that when we desired the society of a particular female to apply to this committee for advice. They would interview the woman of our choice and arrange the meeting for us. Certain rooms known as spare rooms were kept for the use of visitors, but these rooms were oftener used for the purposs to which I have al'uded. Noye's own daughter teld me when she was shout seventeen that he had repeatedly tried to have children by her. Finally her mother interfered and saved her. My cwa sister told me that when but nice years old she and five other children were forced into a room together and assaulted were forced into a room together and assaulted by the old mons'er, and she knew of girls of ton and twelve who were taken from their beds at sight and carried to his room to satisfy his horrid apportite. O. her young girls and grown women have been made to walk about the fields in summer and under frees forced to sutmit to him. There are women now married to outsiders, whom I could name, who ried to outsiders, whom I could name, who have been made to walk about the fields in summer and under frees forced to sutmit to him. There are women now married to outsiders, whom I could name, who have been made to walk about the fields in summer and under frees forced to sutmit to him. There are women now married to outsiders, whom I could name, who have been made to walk about the fields in summer and under frees forced to sutmit to him. There are women now married to outsiders, whom I could name, who have experienced the most unbeard of and disgusting treatment from his hands. A peigbbor, Mr. Hubbard, who lives near the Oceida Community, rold me last summer that he coos came upon Noyes in swimming with half a drzen women, in a creck running through the firm. The whole party were entirely nude. Two years ago the Oseida Community had a summer house at Oneida Lake, about twelve miles aw.y. In the summer Noyes would spend a sesson of fishing there. To this place he would take half a dezen young girls, ranging described. Like Guiresu (a description of whose tots in the community the deponent gives) he claimed to do everything by inspiration. He was intensely jealous of any young man who hecame a tavorite with the young women. He wasted to put off old women on to the young men and have all the young girls to himself. Falling in love was a grievous offence with Noves and was called the 'marrisga spirit,' 'worldly love' and lots of other names. But if their intercourse was only casual then twas all right. Noyes professes to do everything by inspiration, and regular courch services are held in the building in which any one is entitled to speak. What I have told you about the Oneida Com-munity is not inspired by malice, Sometimes young men would call on us and order a room and so many women to occupy it with themactually supposing they could do this like ordering up a dinner. I can rafer you to men and women now outside who were brought up with me in the Onei ta Community and who will sup-

Alexandris, Va., August 4, 1881.

I was thrown from my horse 6 or 7 years ago, and suffered a severe wound of the side, which was aggravated by disordered kidneys. Rieven months ago I was attacked with pneumonia and bladder disease, deposits of brick dust and albumen being discernable by the naked eye. I was confined to the house for six months, and was men being discernable by the naked eye. I was confined to the house for six months, and was unable to cross the floor without assistance. My physician did me no good. Having read in my religious weeklies of the wonderful cures by your Safe Kidney and Liver Cure, and being advised to use it by Captain Graham, I did so, and am once more able to walk the streets. My pains have left me, and I believe if I had used the remedy a year ago I should then a se have been cured.
